## ON THE COVER

The NORC Master's team traveled to Chicago, IL for the 39<sup>th</sup> Annual Chicago Sprints Regatta. NORC competed in 15 events including a 6<sup>th</sup> place finish in the Master's Lightweight Men's 2x with rower's **Will Kuckro** and **Neyvin DeLeon** (pictured).

The New Orleans Rowing Club men's team prepare for their fours race against Tulane University in the Second Annual Fred King Challenge Trophy race.

The Middle School team travels to The Woodlands, TX to scrimmage against Rowing Club of the Woodlands (RCTW).

The Bayou St. John Regatta sees record participation including eleven 8+'s at the middle school, high school, and masters levels!

# Dear Friends,

It's been a big year.

New Orleans Rowing Club accomplished almost every goal it set out to achieve in 2019. This included growing the middle school and high school programs, increasing adult membership, revamping the club's adult learn-to-row and novice programs, and launching a brand new adult adaptive program. This was all capped off with an End-of-Year Banquet which saw more than 200 in attendance – showcasing NORC's tremendous growth. We also managed to win a few medals in the process!

NORC also saw a record amount of volunteer service hours conducted by our rowers, parents, coaches, and board members. This included making fleet repairs, maintaining the boathouse, organizing task committees, assisting coaches with learn-to-row camps and lessons, and generally just going above-and-beyond when called upon to do so. As a community rowing program and the only in Louisiana, service and activism is one of the cornerstones for how we are able to have a lasting impact on our athletes and the City of New Orleans. I encourage our members and athletes to continue this focus and effort.

This year also marked my fifth year as the elected Commodore of NORC. I cannot express how satisfied I am by the health of the club and the overall health of rowing in New Orleans. We could not be in a better place at the moment.

But, where do we go from here?

When I was first elected, we adopted a 5-year plan to guide us through our growth. With that plan now complete, we are ready to adopt the next 5-year plan to position the club for more success by 2025. The new plan is bold and visionary, with a goal of establishing the sport's permanency in New Orleans through the construction of a new boathouse(s), increased coaching, an improved racing fleet, and expanding all programs to be competitive within the region and nationally.

Moving forward, we will be calling on our members to adopt and own this vision for the future. This means advocating and contributing to the sport and to our club in any capacity you can. Let's pull together!

Thank you again for an incredible 2019!

**John Huppi**  
NORC Commodore 2019

I am so very grateful for the leadership of the coaches and Board of Directors who stepped up in 2019. We wouldn't be where we are without their commitment and motivation. I look forward to working the new board in 2020!

-- John

# ROW BETTER TOGETHER

By Will Kuckro

This year, NORC had the largest group of adult rowers to row regularly in the City of New Orleans since the late 1800s. The year ended with NORC sending the largest number of rowers to a regatta, ever. We could not be prouder of the work, determination, and commitment put in by those who spent their time and effort this year to make this program the success that it was.

In February, the inaugural New Orleans Indoor Rowing Championships took place. Not only did NORC host the event, but several other clubs and individuals from across the tri-state area competed including our friends at LSU Rowing.

Spring training led to the first on-water event of the year, the 2nd Annual Fred King Challenge against Tulane University. The Challenge trophy is in the men's coxed four, but the team was able to field a men's eight to race as well. Tulane took home both events in two tight races, bringing the current standings to 1-1. After being featured on Row2K's picture-of-the-day, we look forward to continuing the tradition next year.

NORC also spent the spring hosting numerous Learn-to-Row camps, introducing new athletes from across the city to the sport. Unfortunately, the Director of Learn-to-Row Michael Merwin announced he would be moving to Boulder, CO, certainly a blow to the momentum Michael had built over the past few years. Not to worry, as Joy Nix took up this mantle and helped continue our push and expand programming into the early summer with the national Learn-to-Row day followed by our first ever dedicated beginner training session. Thirteen rowers participated and most of them continued on to become full members in the club. We also participated in the teams' largest annual fundraiser at Bayou Boogaloo, where we not only earn funds to help support the program but also spread the word to countless new rowers over three days.

In Summer, four rowers headed to the USRowing Southeast Masters Championship Regatta in Augusta, GA, earning five

medals out of the nine events entered. Next, the club traveled to Chicago for knockout racing in the Lincoln park lagoon as part of the 39<sup>th</sup> Annual Chicago Sprints. Despite high waters and unsurprising windy conditions, the club finished in 2<sup>nd</sup> place in the Master's Men's 2x event and just missed the finals in several other events.

The Fall season saw a dramatic rise in membership levels. In total, 55 rowers started the season and we ended with 70 adults on the roster. We hosted a second 7-week event for beginner rowing, having to split up and offer two days due to demand. Training intensified in September as fall race weekends were fast upon us.

During the first weekend in October, the club hosted the Bayou St. John Regatta (renamed from Fall Time Trial). The masters team boated eighteen different lineups with five new course records being set in the process.

The following weekend, a group of rowers traveled to Jacksonville, FL to participate in the First Coast Head race. This course mimics The Head of the Charles with it's tight turns and bridges, starting in an open bay with dolphins at your side, ending in a tight inlet with marshes and boat docks. The was the first time many rowers had ever rowed more than 1500 meters without stopping, due to the bayou bridge restrictions. Our mixed 8+ finished the day with a strong showing, beating out our Jacksonville RC rowing rivals in the A category.

NORC Commodore John Huppi competed in the Master 30+ 1x event at the Head of the Charles, finishing in the middle of pack in a strong field of national and international competitors.

The Fall ended with travel to Head of the Hooch in Chattanooga, TN and the Head of the South in Augusta, GA. The club earned its first victory at Hooch in the Inclusive 2x event with rowers Hanora Tracy and Kathleen Creen.

## ADAPTIVE SEASON REVIEW

# ROWING FOR ALL

By Joy Nix

**2019** was the first year NORC focused on building a foundation for adaptive and para-rowing specific training for people with disabilities. This requires adapting equipment and having oversight from qualified coaching in order to participate in the sport. In an effort to offer more programming in 2020 for people with various disabilities/classifications, NORC received a grant from the Numotion Foundation for \$2500 to cover para-rowing specific equipment to support PR1 and PR2 athletes including a para-rowing seat, tracks, pontoons, oars and PFDs.

We also received a donation from Lake Sunapee Rowing Club for a double that meets FISA para-hull standards to support training for 2020. Additionally, the club converted one of its single shells, the Peinert Dolphin, to a PR1 and/or PR2 fixed seat hull using the equipment acquired through the Numotion grant.

Additionally, this year we were able to support PR3 rowers. We had one NORC PR3-ID athlete compete at the Spring Time Trials setting a course first for the inclusive 2x, Capital Sprints in DC placing 2nd in the inclusive 2x, Bayou St John Regatta, First Coast Regatta placing 1st in the inclusive 2x, and Head of the Hooch Regatta placing 1st out of 5 boats in the inclusive 2x.

Overall, this was a great breakout year for Adaptive Rowing in New Orleans and we are excited to continue this growth into 2020!

## WHAT IS ADAPTIVE ROWING?

**Adaptive rowing** (or para-rowing) is a category of rowing for those with physical disabilities. There are three categories for adaptive rowers:

- **PR3** (previously LTA - Legs, Trunk, Arms) - *Use of at least one leg, trunk and arms. Also for those with visual and intellectual impairments. Rowed with standard boats and sliding seats.*
- **PR2** (previously TA - Trunk and Arms) - *Only use of trunk muscles. Boat has fixed seat.*
- **PR1** (previously AS - Arms and Shoulders) - *Limited trunk control. Boat has fixed seat and rower is strapped at upper chest level to only allow shoulder and arm movements.*

## Unique Benefits for the Adaptive Rower

- Can row without legs
- Don't have to see to row in a coxed boat
- Rowing can be done at a slow, steady rate
- Coxswain position requires minimal movement
- Rowing is done in a seated position
- People with intellectual disabilities can master the repetitive stroke sequence
- The repetitive sequence of the rowing stroke has been shown to be beneficial in helping to recover from PTSD and TBI

## HIGH SCHOOL SEASON REVIEW

# MAKING A SPLASH

By John Huppi

The NORC junior high program took another big step forward in 2019 with a record number of competitive athletes participating in separate spring, fall, and winter rowing seasons. The High School program was led by NORC coaches, John Huppi and Hannah Huppi, with assistance from Michael Merwin, Dominic Fayard, and Will Mathes.

Programmatically, the biggest change in 2019 came from the introduction of sweep rowing and racing to accommodate the larger number of athletes on the water at any one time. Additionally, this will position NORC to better align itself with other rival clubs in the region who often prioritize their best athletes in the 8+ for regional and national events. To do this, the club acquired a low mileage 2006 Vespoli 8+ to help facilitate more sweep training. This fall, the club fielded a Women's Youth Novice 8+ and Men's Youth Novice 4+ at the Head of the South, marking the first sweep entries that New Orleans high schooler have entered in any race since the early 1980s.

Highlights from the year included making the A-Final in the Women's U17 4x category at the Dogwood Junior Championships in Oakridge, TN. This youthful group of girls started the year as new rowers and certainly made a statement to the region that New Orleans Rowing Club is ready to compete at the championship level.

Additionally, seniors Cailin Christoforo, Payton Radosta, Dominic Fayard, and Thomas Thompson finished their careers on strong notes. Cailin advanced the Women's 2x to the semifinals and Dogwood Championships and both Dominic and Thomas competed in the Men's Youth 2x at the 39<sup>th</sup> Annual Chicago Sprints Regatta, narrowly missing the finals in a knock-out style event. Thomas also broke the Men's U19 1x Bayou St. John course record during the Spring edition of the Time Trials.

The NORC junior program also made significant relationships with local schools and rowing clubs. Of note, the team scheduled another dual regatta with the Rowing Club of the Woodlands (RCTW) during the spring racing season. The club also recruited more female athletes from the Louise S. McGehee School located in Uptown New Orleans. Lastly, the club continued to initiate a few learn-to-row camps, inviting youths from multiple schools in the area.

The following table shows the year to year growth of the junior team and performance at regattas:

NORC High School	2016	2017	2018	2019
Total Athletes	17	33	48	33
HS Competitive Athletes	11	18	21	33
Novice Athletes	6	15	12	26
Travel Regattas	2	4	2	5
Total Races	14	27	16	43

## THE NEXT GENERATION

By Emily Gass & Maggie Daly

**T**he NORC junior development team saw impressive growth in numbers and results in 2019. Coaches Maggie Daly and Emily Gass supported 15 middle school athletes during the spring season, culminating in the team's first travel race--a scrimmage against The Rowing Club of the Woodlands (RCTW).

A strong spring season in terms of attendance and teamwork resulted in an increase in inquiries for summer learn-to-row camps, and ultimately fall programming. The fall roster jumped up to 30 middle school athletes. The students represent a diversity of schools in the New Orleans area, including but not limited to Haynes Academy, Audubon Charter, Bricolage Academy, Waldorf, St. Benilde, St. Pius X, Lusher, Ursuline Academy, Lycee Francais, Sacred Heart, Nola Micro Schools, McGehee, Lake Forest, and homeschool.

During the fall season, priority was placed on developing both sweep and sculling boats. The team was consistently able to take out 8s and quads during practice. With the help of assistant coaches and the increase of kids on the water, we were able to begin training our first cohort of development coxswains. The club purchase of a new, lighter 8+ made middle school practices much more efficient and effective.

For the development team, the Bayou St. John Regatta was the main event of the fall season. All four middle school 8s successfully beat the previous middle school 8+ course record originally set in 2018. Furthermore, a testament to their versatility and fitness, both mixed middle school 4x+'s posted times that were competitive with the junior men's 4x+ and junior women's 4x+. This has set the bar very high for 2020.

At the end of the fall, the development team travelled to their first away regatta. The top eight middle school athletes were selected and raced against seven other middle school crews

from all over the southeast at the Head of the South Regatta in Augusta, GA. The crew placed 4th overall and did an outstanding job of contributing to the club at an away event.

## RECORD NUMBERS COMPETE ON BAYOU ST. JOHN

New Orleans Rowing Club held its bi-annual Bayou St. John Regatta on Saturday, October 5<sup>th</sup>, 2019, under blue skies, and above average heat at 90+ degrees. Winds were light from the east to start the morning and shifted to a gradual 8-10mph ENE headwind by lunchtime. In total, 38 boats and 165 seats were raced the 825m course in the middle school, high school, open, and master's categories, the highest participation ever for the event. Additionally, calm course conditions in the morning allowed for 9 course records to be broken.

One of the marquee results for the day was the Masters Mixed 8+ race, with four NORC entries. The winning boat consisting of Joy Nix, Colleen Kohrs, Michael Sgandurra, Will Kuckro, Garth Massey, Keefe Rafferty, Kate Siemens, Lizzy Dougherty, Dominic Fayard (Cox) finished in a time of 2 minutes 45 second, besting the second and third place boats by 5 seconds, and fourth place boat by 18 seconds. Their time broke the previous mixed 8+ course record, and

also set a new overall course record in the process. The previous overall course record was 2 minutes 46 seconds, set by John Huppi & Michael Sgandurra in a Men's 2x in Spring 2019.

The Men's Open 1x saw NORC President, John Huppi, survive a scare to defend his title over three other competitors in a time of 3 minutes, 1.8 seconds. Reflecting after the race, John says "I had a good start and a shot to break the men's single record set in 2018, but a pesky Alligator Gar had different plans and decided to get tangled up with my starboard blade almost bringing me to a full stop while I recovered." This year's event had more international flavor with scullers from Great Britain and Japan racing as well. Two weeks later, John traveled to Boston to compete in the men's single at the prestigious Head of the Charles.

Scullers Hanora Tracy & Amy Lutz won a tight Women's Masters 2x race with four total competitors. Their time of 3 minutes, 40 seconds bested Joy Nix and Colleen Kohrs who came in second in a time of 3 minutes, 49 seconds (a course record in the B-age category). Tracy & Lutz held a two-seat lead for the first 400m before starting to walk away.

One of the marquee results of junior high school division came in the Women's Junior 2x race. Sophomores, Adison Gibson & Moe

White won the four-boat event in a time of 3 minutes, 59 seconds, besting second place by just 3 seconds, and besting two other upperclassman crews. Gibson & White have continued to surprise all season with their speed, winning pieces regularly at practice with poise and long, technically sound strokes.

The highlight of the middle school division came in the mixed 8+ event which saw four crews battling for the podium. The winning crew consisting of E. Ferguson, E. Schwennessen, H. Kempt, C. Massey, I. Debruy, T. Dieudonne, M. Fayard, W. Patania demolished the previous course record in a time of 3 minutes, 51 seconds.

The other three crews also came in strong, each besting the previous course record in the process.

Over 100 parents and fans lined the Wisner Trail to watch the development of these remarkable athletes, many of whom in their first ever rowing race. The depth and speed of the program will be tested in November when the top 8 middle school athletes will be selected to travel to Augusta, GA to compete in the Head of the South Regatta.

# A NEW ORLEANS TRADITION

The history of rowing in New Orleans embodies the City's passion for sporting excellence and resiliency

BY JOHN HUPPI

The sport of rowing is one of the oldest sporting traditions in New Orleans. The city's first club emerged in 1835 and the first regattas took place in 1839. By the late 1800's, more than 30 clubs were formed as the sport gained popularity, largely with the working, middle-class. Over the past 185 years, more than 40 clubs have existed with locations on Bayou St. John, Lake Pontchartrain, Mississippi River, Orleans Outfall Canal, and the now-defunct New Basin Canal.

New Orleans has hosted national regattas and sent rowers to compete at national and international events including the Olympic Games, World Championships, Junior World Championships, World University Games, PanAM Games, Henley Royal Regatta, and the Head of the Charles. New Orleans' rowers have also set world records and persevered through countless setbacks that threatened the existence of rowing in the city. Today, the sport of rowing is thriving through the success of the Tulane University and New Orleans Rowing Club programs.

## List of Rowing Clubs of New Orleans

*Listed in chronological order of formation or appearance in archival research*

Wave Club (1835)  
Lady of Lyon Boat Club (1836)  
The Algerine Rowing Club (1839)  
Ariel Rowing Club (1839)  
Knickerbocker Athletic Club (1839)  
Locofoco Rowing Club (1839)  
Edwin Forrest Rowing Club (1839)  
Washington Rowing Club (1839)  
Creole Rowing Club (1839)  
Monona Boat Club (1859)  
Pioneer Club (1859)  
New Orleans Rowing Club (1860s) (reformed 1966)  
(reformed 1987)  
St. Johns Rowing Club (1872)  
Pelican Rowing Club (1872)  
Odalisque Club  
Orleans Rowing Club (1873) (disbanded 1880)  
Riverside Club (1873)  
Charles T. Howard Rowing Club (1873)  
Lee (R.E.) Rowing Club

Atlantic Boat Club  
Neptunes Club  
Hope Rowing Club (1879)  
Louisiana Boat Club (1879)  
Perseverance Rowing Club (1880)  
West End Rowing Club (1880)  
Saratoga Rowing Association  
Antoine Rowing Club  
Mole Rowing Club  
Baldwin A. Rowing and Athletic Club  
Eclipse Rowing Club  
St. Bernard Rowing Club  
Independent Rowing Club  
Crescent Rowing Club, renamed Young Men's  
Gymnastics Club (1898), renamed New Orleans  
Athletic Club  
Bayou St. John Rowing Club  
Tulane Rowing Club, renamed Tulane University  
Rowing Association  
St. John Boat Club  
Pontchartrain Rowing Club  
Vista Shores Rowing Crew (1977), renamed New  
Orleans Rowing Club (1987)  
Loyola University New Orleans Crew  
Memmiian Rowing Club

## HERE ARE SOME OF THE MILESTONES THROUGH THE YEARS:

**1835** Wave Boat Club becomes the first rowing club established in New Orleans

**1837** The Picayune urges young men of the city to form a rowing club due to the sports' growing popularity in eastern cities

**1839** First race held in New Orleans between Ariel Club and two clubs from Mobile, AL

**1844** A devastating river flood destroyed most of the boathouses and equipment in the City

**1872** Rowing resumed after the Civil War with the creation of the St. John Rowing Club and New Orleans Rowing Club, amongst others

**1879** Frank J. Mumford wins the US National Championship in the single sculls category

**AQUATICS.**  
**The Pelican Club Regatta at Bayou St. John.**  
**Champion Time by the Riverside Crew.**

The annual regatta of the Pelican Rowing Club fell on a most auspicious day. The banks of Bayou St. John were a little wet and muddy—their chronic state—but the sun came out in all his splendor. The crowd that went to the bayou was far greater than on any previous occasion. The houses of the St. John and Pelican Clubs were covered with their guests; the two bridges held over a thousand, whilst the rows that covered both sides of the bayou must have swelled the total to at least five thousand.

**1904** New Orleans'-born sculler CS Titus places 3<sup>rd</sup> at Olympics

**1909** Tulane University Rowing is established

**1988** Tulane & Vista Shores alum Raul Rodriguez wins silver medal at Olympics

**1997** NORC rower, Shannon Woods, sets world record on indoor rowing machine

**2014** NORC returns to Bayou St. John

# NEW ORLEANS ROWING CLUB

## Your donations in Action!

All numbers represent our last fiscal year, January 1, 2019 to December 31, 2019

New Orleans Rowing Club's financial performance was monitored closely throughout the year to ensure we could meet our financial obligations and accomplish our goals. We ended the year with a positive cash balance and once again, there will be an approximately 7% increase in membership fees for 2020.

New Orleans Rowing Club was able to pay off the outstanding balance for the newly acquired Vespoli 8+ and Swift 2x. The club held an end-of-year fundraiser as part of a new campaign to raise funds for general practice and travel equipment to better support our growing programs.

In 2020, a stronger emphasis will be placed on the acquisition of more club equipment, including more sculling blades, a new eight, a new double, a new quad, and a bigger trailer. Additionally, the club has identified several equipment items that will enhance the safety profile of New Orleans Rowing Club's operations on Bayou St. John, including the addition of a new motorized safety launch.
